The Emperor of Austria landed at noon, and
was reserved by the Kaedire with great ceromeny and magnificent military and civic display. Honese were descented, arches were
taked over the principal streets, nuadreds of
fage were flying, and salutes exchanged between the finet and shore.

A BRILLANT ECEN.

At night the town and harbor were ablaze
with fireworks and filmminations. Streets
were as bright as day, all the home-tops being
covered with lighted toreles. The rigging of
the men-of- wer and the shipping in the harbor
was hung with harbers of every color, and
showers of rockets were rising and falling.

The Kacdvic gave a grand ball on board his
yealt, which was a superb sifidr. It was attended by the Emperor, Fancis Joseph, and
all the distinguished grouts now ascemified at
Port Baid. The water was alive with boats
hastening to the Vice Ragal Yasht. The ball
lasted nutil carly morning.

The Furgussa bill is simply bogus. It wiolates the organic law of Ohio to begin with and is tied up in the Court of Ohio to cod with. This is the sum of it, the in the face of the express terms of the writin the face of the express terms of the writ-ten law, rasifies the proposed self taxation. The matter is contested. An agreed case is made up for the higher courts, whilst the Superior Court of Cincinnati (an info-rior tribunal be it remembered) appoints trustees under the ten million bill. These trustees are all citizens of Cincinnati.

The way on any was a construction of the following trustees under the ten million bill. There is a designar. From the bott of the deceased there were stand by the following surgeous first precision and the control of the court of the court

opinion it has been argued sufficiently. Here argument can determine nothing more than has been determined already. A truer test, an intallible test, is to be tried, and the affect will soon be seen. That test is actual experiment, and, argue as we may, we must accept its results. Contracts have already been made for the importation of a large number of Chinese into the South to be employed by the planters and others, and the immigrants will in a short time be upon the ground. They will have a chance to succeed or to fail, to do well or to do ill, and from the character of their labor or laziness, their worth or their worthlessness, our people will know

ty, but unjust and oppressive laws have been enacted against the whole race, Cali-fornia commencing the work and other States going even beyond her. The Legis-slature of Idaho passed a law declaring that no Chinaman should be permitted to should be legally presumed to be miners and forced to pay the five dollars for every month of their residence. There is a law of a similar character, though not quite so bad, in California, but we do not know whether the question of its constitu-

One would think the judiciary of the country all-sufficient for the annihilation of such savage enactments, and yet they have existed and been enforced in Califor-

Let us be patient and congratulate ourselves that enterprising pesceres have taken measures to decide an issue of great moment to our whole people. If the grand experiment succeeds with the Chinese now on their way to this country or aiready here, the influx from the "Flowery Kingdom" will, at no distant day, be immense. But, whether the presence of the Chinese

If this discovery realises the representations of the discoverer and others who have been witnesses of the results of the experiments made with it, it offers a fine chance for capitalists to insugurate great and salutary enterprises in the places where the immense waste of meat now takes place. Such enterprises, especially the first that shall be started, will bring large fortunes to those who undertake large fortunes to those who undertake them, and the result will be a lasting ben efit to the world of mankind.

Mr. Atkins—Do you remember, on Monday porroling, when she told him to pick up sapers our property of the sead when he was picked as papers. De you see that? A. No, may see that? A. He was atting back of me. I den't know how far I was from him. I did not see all that occurred. I have told all that I saw.

Corneling Patten, another boy of about te my wars of age, said: Willie Atkins was making a moise with his hands, be put his hands up to his mouth and biew, and Mias Herrick shock him, he tried to hold on to the deak, and she pulled him away and shook him against the steam-pipes, he then were back to his chair and began to cry; Mias Herrick told him to stay after school; and when achoel was out he ran to go out, but she told him to go back.

The Gress Dianeter.

An article concerning the "Gress Disaster" of last Diseaber, and relating to destine stills for damaces levied against the Mail-hook Company, which appeared in the Conzern-Journal of Sunday, consists some partial statements and legal constructions of so one-sided a nature as to require explainable. The article in question was presured by one of the saterosers (Er. Durrett, of the firm of Bramietts & Durrett) for the plaintiffs in the case at the instance of our law reporter, and by misapprehension was inserted by our city cellors a local master. It was the purpose of our law reporter to give a view of the case taken from both sides; but this purpose was frustrated in the manner stated. So much is due the defendable, toward whom is would be quite impossible for us to meditate much less perparate the less intentional injustice.

house," all carefully labeled, and in these are kept for mouths or years, as the case may be, the different journals with which Dr. Helmbold does business.

As an advertiser Dr. Helmbold has no equal. The amount of money he expends every year in spaking his business known in extraordinary, almost incredulous, and the results of this strentisting are remarkable. Take the one article of "Buchut" Way, this magic word adorse every dead wall, reace, rock, and telegraph pole from the Libshide to the Pacific. Every newspaper of note in the fister receives favor from Dr. Helmbold, and the results of "Squeedinst" have an equal chance with the related proph of "mouting." In learn of the wonderful generalist, as stand previously, it reams that advertising, as stand previously, it reams to the wonderful generalist, as stand previously, it reams to the severalism, as stand previously, it reams to the severalism, as stand previously, it reams, 1800, over three million bottles of Robus were packed and shapped to various provious of this continent, and the amount expended in adversiming was a killed over two hundred and flat three proviously, it is not to the continent, and the amount expended in adversiming war a killed over two hundred and flat providing or more to some new spaper is nothing extraordinary for him, providing the paper is of sufficient importance.
